Ameritech's Development View is subject to change and is not binding on Ameritech. Ameritech's Development View reflects Ameritech's intent to modify or enhance the OSS offered by Ameritech, as of the time that the View was prepared. Facts and circumstances upon which the View is based (e.g., CLEC demands, regulatory obligations) may change over time. Accordingly, Ameritech reserves the right to modify the View, in its sole discretion.

In addition, Ameritech is sharing its Development View with CLECs in an effort to encourage meaningful discussions between Ameritech and CLECs regarding Ameritech's perception of their needs or desires for future OSS modifications and enhancements. In some instances, such discussions may lead to changes in Ameritech Development View.

Because Ameritech's Development View is subject to change and is not binding on Ameritech, CLECs should not rely on the Development View. The official notices disseminated by Ameritech announcing anticipated OSS modifications and enhancements reflect Ameritech's actual plan.
